There is no fourth wall in popular performance. The show is firmly rooted in the here and now, and the performers address the

audience directly, while the audience answer back with laughter, applause or heckling. Performer and role are interlaced, so that we are left uncertain about just how the persona we see onstage might relate to the private person who presents it to us. Popular Performance defines and surveys varieties of performance where the main purpose is to entertain, and where there is no shame in being trivial, frivolous or nonsensical as long as people go home happy at the end of the show. Contributions by new and established scholars focus particularly on how it is made, explaining the techniques of performance and production that make it so appealing to audiences. With sections examining how popular performance works in a range of historical and contemporary examples, readers will gain insights into: \* performance forms associated with the variety tradition: music hall, vaudeville, cabaret, variety \* performance forms associated with circus: wild west shows, clowning \* issues relating to the identity of the performer in relation to magic, burlesque, pantomime in contemporary performance \* issues relating to venue and audience in relation to contemporary street theatre, stand-up, and live sketch comedy.

Since its introduction in 1998, the water-cooled Porsche 911 has earned a reputation as one of the world's greatest sports cars - equal to, if not better than, the legendary air-cooled 911 it replaced. The 911 is a true driver's car, and it offers its greatest driving rewards when properly maintained, tuned, and modified. One of the principal drawbacks to owning a Porsche is the relatively high cost of maintaining it. You can literally save thousands of dollars in mechanic's costs simply by performing some of the work yourself. With 101 Projects for Your
