solve frequent problems in each of these stages. The chapters are organized to mimick the sequential data flow evidenced in Analytics platforms, but they can also be read independently to solve a particular group of problems in the Big Data life cycle. If you are an experienced developer who is already familiar with Pig and is looking for a use case standpoint where they can relate to the problems of data ingestion, profiling, cleansing, transforming, and egressing data encountered in the enterprises. Knowledge of Hadoop and Pig is necessary for readers to grasp the intricacies of Pig design patterns better.

Horace Fletcher, an American health-food advocate of the Victorian era, earned the nickname "The Great Masticator" through his advocacy that food needed to be chewed thirty-two times before being swallowed. At the age of 58, he conducted a series of strength and endurance experiments at the Yale Gymnasium versus college athletes which claimed that Fletcher could outperform these athletes. Fletcher also had a great interest in human excreta, believing

comprehensive collection of tests designed to record students' reading progress. There is a selection of tests for each Activity Book covering all of the sounds and blends learnt. The familiar activities and sequential testing of sounds assist students to succeed. Photocopiable individual and class record sheets provide an at-a-glance record of your students' progress. The structured nature of the tests means they can also be used independently from the Phonics First series as a concrete recording tool of student skills. The Reading Freedom 2000 Diagnostic Handbook should be used to place students at the correct level in the program. In order to work successfully with the Phonics First Activity Books, teachers should refer to the Phonics First Teacher Resource Book and monitor student progress
