This book explains and demonstrates with a clear, step-by-step approach how communication and thinking competencies can be enhanced through instruction. This revision elaborates further on a language arts program built to focus on the needs of individual students. Each of the fourteen chapters is divided into three sections covering theoretical foundations, practice, and professional development, giving the text a practical, usable organization. The second and third sections apply the principles from the first section to the classroom. Features in these sections show specific teaching strategies that offer practical ideas for teachers to develop an ongoing and successful teaching repertoire. For Language Arts teachers.

Addressed to K-12 teachers, discusses enhancing student achievement through project-based learning with multimedia and offers principles and guidelines to insure that multimedia projects address curriculum standards.
