Carena Zoomex S . A very unique and well-made regular 8mm camera made in Leichtenstein. TTL Auto Exposure . If you did some research on regular 8mm cameras, you would realize that auto exposure in most of them is controlled by an external meter. This is sometimes problematic because the intensity of the measured light could be different from ...

carena camera | eBay  
Feb 26, 2014 - Carena was a very modern 8mm movie camera made in the early 1960s in France. The unique design was a pleasure to look at and shoot with. Carenas had a wind-up motor, which was customary at the time, but instead of a key on the side of the camera you turned the round pistol grip to wind them up. There were two models, the prime lens Auto Carena non-reflex model (which I had) and ...
