History has been taught in a boring way for far too long.
A subject as moving and powerful as humanity's past should be inviting, and when it is told well, it is. Susan Wise Bauer succeeds in telling the captivating story of history with her best-selling history series. Parents and young readers have fallen in love with her narrative history, The Story of the World, and its accompanying Activity Book. Now teachers and home educators can take advantage of a new and valuable learning tool. These easy-to-use tests and answer keys, successfully used by hundreds of parents and teachers, provide an objective method for measuring retention of key facts, figures, and events from history. A combination of sequencing, matching, short-answer, and essay-style questions gives students a chance to show what they've learned. Used with the Activity Book and The Story of the World, the tests give educators a complete history curriculum for their elementary school students.

This comprehensive, 8.5" x 11" curriculum guide and activity book contains map activities, coloring pages, games, projects, review questions, cross-references to illustrated encyclopedias, and extensive book lists. Children and parents love the activities, ranging from cooking projects to crafts, board games to science experiments, and puzzles to projects. Each Activity Book provides a full year of history study when combined with the Textbook, Audiobook, and Tests—each available separately to accompany each volume of Activity Book.

Provides sample questions and answers, recommended readings, maps, and activities.
Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

At the first Conference of the Parties of the Climate Convention in Berlin in Spring 1995 it became evident once again: To counteract anthropogenic climate changes, individuals as well as societies have to change their way of thinking and behavior. This accounts for other areas of global environmental change as well. Global trends like soil degradation, loss of biological diversity, water scarcity and population growth show little or no sign of improvement. In fact, in most areas a rapid deterioration has taken place. In its latest Report the German Advisory Council on Global Change describes "Ways Towards Global Environmental Solutions".

A chapter from the Global Innovation Science Handbook, a comprehensive guide to the science, art, tools, and deployment of innovation, brought together by two Editors of the prestigious International Journal of Innovation Science, with ground-breaking contributions from global innovation leaders in every type of industry.
