Warm, wise, and magical—the latest novel by the bestselling author of *THE LITTLE PARIS BOOKSHOP* and *THE LITTLE FRENCH BISTRO* is an astonishing exploration of the thresholds between life and death. Henri Skinner is a hardened ex-war reporter on the run from his past. On his way to see his son, Sam, for the first time in years, Henri steps into the road without looking and collides with oncoming traffic. He is rushed to a nearby hospital where he floats, comatose, between dreams, reliving the fairytales of his

childhood and the secrets that made him run away in the first place. After the accident, Sam—a thirteen-year old synesthete with an IQ of 144 and an appetite for science fiction—waits by his father's bedside every day. There he meets Eddie Tomlin, a woman forced to confront her love for Henri after all these years, and twelve-year old Madelyn Zeidler, a coma patient like Henri and the sole survivor of a traffic accident that killed her family. As these four very different individuals fight—for hope, for patience, for life—they are bound together inextricably, facing the ravages of loss and first love side by side. A revelatory, urgently human story that examines what we consider serious and painful alongside light and whimsy, **THE BOOK OF DREAMS** is a tender meditation on memory, liminality, and empathy, asking with grace and gravitas what

DREAM: I looked down at my stomach and saw dark blue stripes. I "remembered" these were the first sign of being infected with COVID-19. DREAM: My home was a Covid-19 test center. People weren't wearing masks. I'm taken aback because I wasn't asked to be a test site. I'm worried that my husband and son (who actually lives out of state) will catch it because of my job as a healthcare worker. DREAM: I was a giant antibody. I was so angry about COVID-19 that it gave me superpowers, and I rampaged around attacking all the virus I could find. I woke so energized! Since the COVID-19 pandemic swept around the world, people have reported unusually a vivid and bizarre dream lives. The virus itself is the star of many--literally or in one of its metaphoric guises. Barrett was immediately curious to see what our dream lives would tell us about our deepest reactions to this unprecedented disaster. *Pandemic Dreams* draws on her survey of over 9,000 dreams about the COVID-19 crisis. It describes how dreaming has reflected each aspect of the pandemic: fear of catching the virus, reactions to sheltering at home, work changes, homeschooling, and an individual's increased isolation or crowding. Some patterns are quite similar to other crises Dr. Barrett has studied such as 9/11, Kuwaitis during the Iraqi Occupation, POWs in WWII Nazi prison camps, and Middle Easterners during the Arab Spring. There are some very distinctive metaphors for COVID-19, however: bug-attack dreams and ones of invisible monsters. These reflect that this crisis is less visible or concrete than

others we have faced. Over the past three months, dreams have progressed from fearful depictions of the mysterious new threat . . . to impatience with restrictions . . . to more fear again as the world begins to reopen. And dreams have just begun to consider the big picture: how society may change. The book offers guidance on how we can best utilize our newly supercharged dream lives to aid us through the crisis and beyond. It explains practical exercises for dream interpretation, reduction of nightmares, and incubation of helpful, problem-solving dreams. It also examines the larger arena of what these collective dreams tell us about our instinctive, unconscious responses to the threat and how we might integrate them for more livable policies through these times. A modern classic, *Einstein's Dreams* is a fictional collage of stories dreamed by Albert Einstein in 1905, about time, relativity and physics. As the defiant but sensitive young genius is creating his theory of relativity, a new conception of time, he imagines many possible worlds. In one, time is circular, so that people are fated to repeat triumphs and failures over and over. In another, there is a place where time stands still, visited by lovers and parents clinging to their
