and protect them

In The Georgia State Constitution, Melvin Hill Jr. offers a detailed description of the creation and development of Georgia's constitution. He explains how political and cultural events, from colonial times, through the Civil War, to the present, have affected Georgia's constitutional law. Accompanying the full text of the constitution is Hill's rich commentary of the constitutional provisions. He traces their origins and interpretation by the courts and other governmental bodies. This volume also provides a bibliographical essay which features the most important sources of Georgia's constitutional history and constitutional law. Previously published by Greenwood, this title has been brought back in to circulation by Oxford University Press with new verve. Re-printed with standardization of content organization in order to facilitate research across the series, this title, as with all titles in the series, is set to join the dynamic revision cycle of The Oxford Commentaries on the State Constitutions of the United States. The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research. Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents.

Georgia Odyssey is a lively survey of the state's history, from its beginnings as a European colony to its current standing as an international business mecca, from the self-imposed isolation of its Jim Crow era to its role as host of the centennial Olympic Games and beyond, from its long reign as the linchpin state of the Democratic Solid South to its current dominance by the Republican Party. This new edition incorporates current trends that have placed Georgia among the country's most dynamic and attractive states, fueled the growth of its Hispanic and Asian American populations, and otherwise dramatically altered its demographic, economic, social, and cultural appearance and persona. "The constantly shifting cultural landscape of contemporary Georgia," writes James C. Cobb, "presents a jumbled panorama of anachronism, contradiction, contrast, and peculiarity." A Georgia native, Cobb delights in debunking familiar myths about his state as he brings its past to life and makes it relevant to today. Not all of that past is pleasant to recall, Cobb notes. Moreover, not all of today's Georgians are as unequivocal as the tobacco farmer who informed a visiting journalist in 1938 that "we Georgians are Georgian as hell." That said, a great many Georgians, both natives and new arrivals, care deeply about the state's identity and consider it integral to their own. Georgia Odyssey is the ideal introduction to our past and a unique and often provocative look at the interaction of that past with our present and future.

Do you know what the Constitution ACTUALLY says? This witty and highly relevant annotation of our founding document is the go-to guide to how our government really works (or is supposed to work). Written by political savant and entertainment veteran, Ben Sheehan, and vetted for accuracy by experts in the field of constitutional law, OMG WTF Does

the Constitution Actually Say? is an entertaining and accessible guide that explains what the Constitution actually lays out. With clear notes and graphics on everything from presidential powers to Supreme Court nominations to hidden loopholes, Sheehan walks us through the entire Constitution from its preamble to its final amendment (with a bonus section on the Declaration of Independence). Besides putting the Constitution in modern-day English so that it can be understood, *OMG WTF Does the Constitution Actually Say?* gives readers all of the info they need to be effective voters and citizens in the November elections and beyond.

By state law, graduates of public colleges and universities in Georgia must demonstrate proficiency with both the U.S. and Georgia constitutions. This widely used textbook helps students to satisfy that requirement, either in courses or by examination. This brief and affordable study aid begins with a discussion of the ways that state and local governments, in providing services and allocating funds, affect our daily lives. Subsequent chapters are devoted to • the development of our federal system and the importance of constitutions in establishing authority, distributing power, and formalizing procedures • how the various state constitutions differ from each other, even as they all complement the U.S. Constitution • how constitutions in Georgia have been amended or replaced • Georgia's governmental institutions at the state, county, and city levels • elections in Georgia, including the basic ground rules for holding primaries, general elections, and runoffs Key terms and concepts are covered throughout the book, as well as important court cases at the national and state level. In addition, helpful lists, diagrams, and tables summarize and compare such information as • the structure of Georgia's court system • the number of constitutions each of the fifty states has had, the number of

times each state's constitution has been amended, and the length of each state's current constitution • various procedures used by the states to amend their constitutions • Georgia's ten constitutions, with highlights of their major changes or features • the number of amendments voted on in Georgia from 1984 to 2012 • the executive branch officials elected by the public across states • the constitutional boards and commissions in Georgia, with details on the methods by which members are chosen • the number and types of local governments in Georgia since 1952 including counties, municipalities, school districts, and special districts • the major federal cases in which Georgia has been a party, on issues of discrimination, representation, freedom of speech and the press, the accused or convicted of crimes, and the right to privacy • rights and liberties, and how constitutions guarantee and protect them

Georgia's past has diverged from the nation's and given the state and its people a distinctive culture and character. Some of the best, and the worst, aspects of American and Southern history can be found in the story of what is arguably the most important state in the South. Yet just as clearly Georgia has not always followed the road traveled by the rest of the nation and the region. Explaining the common and divergent paths that make us who we are is one reason the Georgia Historical Society has collaborated with Buddy Sullivan and Arcadia Publishing to produce *Georgia: A State History*, the first full-length history of the state produced in nearly a generation. Sullivan's lively account draws upon the vast archival and photographic collections of the Georgia Historical Society to trace the development of Georgia's politics, economy, and society and relates the stories of the people, both great and small, who shaped our destiny. This book opens a window on our rich and sometimes tragic past and reveals to all of us the

fascinating complexity of what it means to be a Georgian.

"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.
