Michel Foucault's *History of Sexuality* has been one of the most influential books of the last two decades. It has had an enormous impact on cultural studies and work across many disciplines on gender, sexuality, and the body. Bringing a new set of questions to this key work, Ann Laura Stoler examines volume one of *History of Sexuality* in an unexplored light. She asks why there has been such a muted engagement with this work among students of colonialism for whom issues of sexuality and power are so essential. Why is the colonial context absent from Foucault's history of a European sexual discourse that for him defined the bourgeois self? In *Race and the Education of Desire*, Stoler challenges Foucault's tunnel vision of the West and his marginalization of empire. She also argues that this first volume of *History of Sexuality* contains a suggestive if not studied treatment of race. It includes an examination of the relationship under the strain of the 1991 Gulf War.

Michel Foucault offers an iconoclastic exploration of why we feel compelled to continually analyze and discuss sex, and of the social and mental mechanisms of power that cause us to direct the questions of what we are to what our sexuality is.
