Answer*

The following points highlight the three main factors influencing growth of human population. The

# Download Ebook Human Population Ecology

Demography Answer Key  
factor are: 1. Geographical  
Factors 2. Socio-Economic Factors  
3. Demographic Factors. 1.  
Geographical Factors: The north  
and south poles are free of  
human habitation mainly because  
they are extremely cold and also  
agriculturally unproductive.

## Download Ebook Human Population Ecology

Describe a population at one particular point in time, scientists must use demography to study the dynamics of a population. Demography is the statistical study of population changes over time: birth rates, death rates, and life expectancies.
