Joyce Meyer explains that a life without purpose is a life not worth living. We all need a reason to get up everyday. We all need to reach for something beyond ourselves. Over the centuries, millions of people have asked, "What am I here for? What is my purpose?" We are born; we live; and we die. We cannot do anything about being born or dying, but we can do a lot about how we live. Download the free Joyce Meyer author app.

Life and humanity are integral parts of being a human. Living a human life as an individual interacting with others in a dynamic and rapidly-changing world is not easy. There is often more confusion than clarity and more unknown than known. Complacency can take opportunities to learn away swiftly from one's attention, leaving one puzzling why one is left behind. There are so many areas, issues, and perspectives that one may have to deal with along one's own life trajectory. The majority of them manifest as challenges that may turn into a fortune or misfortune or simply learning experiences depending on how one could deal with them. The conceptual integration of pinpoint moments and illustrative factual illuminations may help one imagine or visualize the processes of image formations and reality manifestations. Metaphorically, the mandalas herein are the imagery displays of a human's cognition concerning beings and life-livings of humans in the context of natural, symbolic, and social environments. The written part of this book includes many aspects of humans' lives accumulated from the writer's learning experiences and observations that may or may not completely resonate with others. It covers only a little fraction, neither comprehensive nor exhaustive, of the reality. It's merely an attempt to lighten the important linkages between (among) humans and societal developments, thereby leading to a wishful promotion of everyone's natural rights and courage to live a meaningful life with dignity, liberty, and peace. Navigation and application of humans' collective intelligence can constructively change the impossible to the possible and the hopeless to the hopeful. A chance to learn and realize the immeasurable values of life and humanity is so important that everyone should have it; humans' love, kindness, empathy, compassion, intelligence, collaborative efforts, and effective actions can make it affordable.

In his memoir, One Heart-Embrace Life, author Dr. Charles Garbarino recounts his journey of recovery and rebirth following open-heart surgery. He reveals his innermost thoughts and feelings, from his reaction to receiving the unexpected news that he required cardiac bypass surgery to his subsequent depression and suicidal thoughts. He openly wonders why God gave him this burden to carry, but finally decides not to just survive his heart attack but to embrace life and live it to the fullest. "One Heart" also recounts the experiences of others, from people who have had cardiac setbacks to those who have lost loved ones in catastrophic natural disasters, to our military troops who have given the ultimate sacrifice. This memoir is about life and its many components, focusing primarily on the heart, both emotionally and physically. Its underlying theme is to embrace life by understanding how to move ahead when challenges cross your path-whether you're facing the loss of a child or the discovery of a medical crisis. "One Heart-Embrace Life" celebrates the many facets of life and the importance of a life well lived. It follows Dr. Garbarino through each step along the path to recovery and includes contributions from health and religious professionals. The lessons are priceless. The journey is like no other. Get ready for a book that will change the way you look at things, forever. All proceeds of "One Heart - Embrace Life" will benefit the American Heart Association.

Daniel was our only child and on Tuesday, September 26, 2006, he stepped through the gates of Heaven. We had no direction in which to go. But powerfully God has delivered a tremendous belief to us that we never had before. He is giving us understanding. We are learning how tremendous faith can be. We hope that our story and our new beliefs will deliver His message to you in the same such way and help you see how honored we are that our special child was chosen to be re-birthed into His greatness.

When we learn to embrace the dance with our Creator and Savior, God begins to move mountains in our lives and He begins to restore the years of our youth the locusts have taken away. Consider the nation of Egypt after the seven years of plenty when the seven years of famine began. By the time the famine was over, everything belonged to the Egyptian Pharaoh and everyone and everything was Pharaoh's possession. It had become a socialistic culture and the government controlled it all. During their times of trial in the seven year famine, that was not the case of the Israelites who had turned to embrace their dance with God. Israel resided in the land of Goshen. God blessed them in a powerful way because they sought divine guidance and provisions from Jehovah. The question we need to ask ourselves today in times of trials; are we going to surrender everything we have to the government expecting hand outs in return, or are we going to the Creator of the universe, who holds the entire universe in the palm of His hand? Louie Giglio said it best in his tour "The Heart of Passion", when he stated "We serve a Ginormous God!" It is my desire that the reading of this book will restore unto you the years of your life the locusts of sin have taken from you so that you can genuinely embrace the dance with God in a powerful way.
