

Jordan Zero Product Preserving Additive Maps On Nest Algebras

Eventually, you will unquestionably discover a other experience and realization by spending more cash. still when? reach you recognize that you require to get those every needs past having significantly cash? Why don't you attempt to acquire something basic in the beginning? That's something that will guide you to comprehend even more almost the globe, experience, some places, as soon as history, amusement, and a lot more?

It is your extremely own epoch to play in reviewing habit. in the middle of guides you could enjoy now is jordan zero product preserving additive maps on nest algebras below.

Let $\phi: B(H) \rightarrow B(K)$ be a Jordan zero-product preserving additive surjection. Then there exists a nonzero scalar c and an invertible bounded linear or conjugate-linear operator $U: H \rightarrow K$ such that either $\phi(A) = cUAU^{-1}$ for all $A \in B(H)$ or $\phi(A) = cUAU^{-1}$ for all $A \in B(H)$ (in the real case, U is linear).

Jordan zero-product preserving additive maps on operator ...
 ciative rings, we say that a map $\phi: A \rightarrow B$ preserves Jordan zero-products (in both directions) if, for $A, B \in A$, $\phi(A)\phi(B) + \phi(B)\phi(A) = 0$ whenever $(\phi(A) + \phi(B))\phi(A) = 0$. The question of characterizing additive maps preserving Jordan zero-products was recently discussed in [11].

Additive maps preserving Jordan zero-products on nest algebras
 The question of characterizing additive maps preserving Jordan zero-products was recently discussed in [11]. Let $\phi: A \rightarrow B$ be an additive surjective map between some operator algebras A and B . Under some mild conditions, it was shown in [11] that, if ϕ preserves Jordan zero-products, then ϕ is a Jordan homomorphism multiplied by a central element.

Additive maps preserving Jordan zero-products on nest ...
 Recall that a Jordan ring A is a non-associative commutative ring with product \bullet satisfying The question of characterizing additive maps preserving Jordan zero-products was recently discussed in ...

Jordan zero-product preserving additive maps on operator ...
 It is shown that ϕ preserves Jordan zero-products in both directions, that is $\phi(A)\phi(B) + \phi(B)\phi(A) = 0$ whenever $\phi(A) + \phi(B) = 0$, if and only if ϕ is either a ring isomorphism or a ring anti-isomorphism. Particularly, all unital additive surjective maps between Hilbert space nest algebras which preserves Jordan zero-products are characterized completely

Additive maps preserving Jordan zero-products on nest ...
 Hou, J.: Jordan zero-product preserving additive maps on operator algebras. (English). - [J] J. Math. Anal. Appl. 314, No. 2, 689-700 (2006). [ISSN 0022-247X]

Hou, J.: Jordan zero-product preserving additive maps on ...
 Jordan zero-product preserving if $F(A)F(B) + F(B)F(A) = 0$ whenever $AB + BA = 0$ for $A, B \in 2R$. The problem of characterizing Jordan zero-product preserving additive or linear maps between rings and operator algebras had been studied intensively (e.g., see [1–5] and the references therein.) Let k be any positive integer.

Maps Preserving k-Jordan Products on Operator Algebras
 for an additive map $\phi: A \rightarrow B$ to preserve zero Jordan products is to be of the form $\phi(x) = cx$, where c is a central element in B and $\phi: A \rightarrow B$ is a Jordan homomorphism and. First we

(PDF) On Maps Preserving Zero Jordan Products
 Motivated by this, we study in this paper the additive maps on the symmetric oper- ator space and the self-adjoint operator space which preserve zero-products in both directions. We say that ϕ is a Jordan zero-product preserving map if $\phi(T)\phi(S) + \phi(S)\phi(T) = 0$ whenever $TS + ST = 0$.

Zero-product preserving additive maps on symmetric ...
 We say that ϕ is zero-product preserving if $\phi(A)\phi(B) = 0$ whenever $AB = 0$; we say that ϕ is Jordan zero-product preserving if $\phi(T)\phi(S) + \phi(S)\phi(T) = 0$ whenever $TS + ST = 0$.

Zero-product preserving additive maps on symmetric ...
 The problem of characterizing Jordan zero-product preserving additive or linear maps between rings and operator algebras had been studied intensively (e.g., see [1][2][3] [4] [5] and the ...

Additive maps preserving Jordan zero-products on nest ...
 additive maps preserving Jordan zero-products was recently discussed in [11]. Additive maps preserving Jordan zero-products on nest algebras Jordan zero-product preserving if $F(A)F(B) + F(B)F(A) = 0$ whenever $AB + BA = 0$ for $A, B \in 2R$. The problem of characterizing Jordan zero-product preserving additive or linear maps between rings.

Jordan Zero Product Preserving Additive Maps On Nest Algebras
 In this paper, strong k-Jordan product preserving nonlinear maps on general rings and k-Jordan zero-product preserving additive maps on standard operator algebras are characterized, generalizing some known results.

Mathematics | Free Full-Text | Maps Preserving k-Jordan ...
 Jordan Zero Product Preserving Additive Maps On Nest Algebras Recall that a Jordan ring A is a non-associative commutative ring with product \bullet satisfying The question of characterizing additive maps preserving Jordan zero-products was recently discussed in

Jordan Zero Product Preserving Additive Maps On Nest Algebras
 Jordan Zero Product Preserving Additive Maps On Nest Algebras Abstract. We study holomorphic maps between C-algebras and \mathbb{C} , when ϕ is a holomorphic mapping whose Taylor series at zero is uniformly converging in some open unit ball . If we assume that ϕ is orthogonality preserving and orthogonally additive on and

Jordan Zero Product Preserving Additive Maps On Nest Algebras
 few papers discussing the zero-product preserving maps between operator spaces. Motivated by this, we study in this paper the additive maps on the symmetric oper- ator space and the self-adjoint operator space which preserve zero-products in both directions. We say that ϕ is a Jordan zero-product preserving map if $\phi(T)\phi(S) + \phi(S)\phi(T) = 0$ whenever $TS + ST = 0$. We know that many operator spaces bear

Zero-product preserving additive maps on symmetric ...
 Jordan Zero Product Preserving Additive Maps On Nest Algebras If you ally need such a referred jordan zero product preserving additive maps on nest algebras ebook that will come up with the money for you worth, get the categorically best seller from us currently from several preferred authors. If you want to entertaining books, lots of novels,

Jordan Zero Product Preserving Additive Maps On Nest Algebras
 Jordan product is a kind of important products in rings and operator algebras. The problem of characterizing additive (or linear) maps preserving some property of Jordan products on various rings and operator algebras has been studied by many mathematicians.

Mathematics | Free Full-Text | Maps Preserving k-Jordan ...
 The problem of characterizing Jordan zero-product preserving additive or linear maps between rings and operator algebras had been studied intensively (e.g., see [1][2] [3] [4][5] and the ...

Maps preserving matrix pairs with zero Jordan product ...
 jordan zero product preserving additive maps on nest algebras can be taken as without difficulty as picked to act. Every day, eBookDaily adds three new free Kindle books to several different genres, such as Nonfiction, Business & Investing, Mystery & Thriller, Romance, Teens & Young Adult, Children's Books, and others.
