I love Morrison and
Boyd's book, i had the
6e which has very good
but for the 7e Pearson
brought in an Indian
author who removed
some very good stuff as
it would not be
important for
competitive exams, so

the book lost its charm, i agree that those stuff which was removed wasn't required for competitive examinations but that's where the book lost its charm the 6e made organic fun, this made it not so fun, it's still a good book but i got disappointed.
