The evidence discovered at underwater crime scenes must be handled with the same attention to proper chain of custody procedures as with any other type of investigation. Improper handling of these scenes can lead to evidence being lost, unrecognizable, destroyed, contaminated, or rendered inadmissible at the time of trial. Updated and expanded, Und

A SOLDIER'S GUIDE TO LEARNING THE TRICKS OF THE TRADE The original "no bullshit" soldier's handbooks, loaded with tips, tricks and ideas on how to live, thrive and stay comfortable in a military outdoor environment through field expedient know-how. From how to take a dump in the woods, improvise/modify or improve military and civilian outdoor gear, combat survival techniques, reducing field boredom, leadership tips, jokes and much more. NEWLY REVISED and UPDATED 2012 EDITION This is the first of two collections that compile all the original 9 volumes into a new 'Complete and Newly Revised Edition'. NOT your typical boring military field manual, these volumes contain info that will keep you one step ahead of your average soldier. Rangers lead the way! This newly revised edition of the first five of nine volumes, adds updated equipment info, new suppliers (now with web links) and much more. "As a former US Army Ranger, Drill Instructor and Advisor/Trainer to the Bosnia & Herzegovina Army (1996-97) under the US State Department "Train & Equip Program". I have always enjoyed sharing with soldiers my personal experiences, tips, tricks and ideas in how to survive & thrive in the outdoors. And although I've been retired from the United States Army since January 1993, I am still doing what I like best - teaching & training soldiers. But not in a class room but through a series of books called THE RANGER DIGESTS. Now before I decided to self-publish these books I use to forward all my tips, tricks and ideas to the Department of the Army. But the only thing I ever received back were letters saying, "...sorry, not feasible for military outdoor field conditions." Well since the Army wasn't interested in my

ideas, I then decided to write a book about my tips & tricks and try to market them to the troops myself. After all, when it comes to "common sense" and "field craft ingenuity" the troops know more about this stuff than some "chair-borne" colonel or general sitting behind his nice cozy desk at the Pentagon."

"Why me God? Why not me? I noticed a swelling on my lower left leg on the calf muscle in late December 2009. There was no pain at all, so I dismissed it as a swelling from a hard fall I had taken in my basement about a month earlier. I showed it to Cindy who wanted me to go to the doctor's, but if you haven't noticed I am thick headed and wanted to see if it would just go away..it didn't. The doctor's visit and subsequent MRI in February began the process of identifying just what this thing was. Treatment could only begin after a positive ID. At this point I was not overly concerned. I still believed it to be a hematoma from the fall. It turned out to be much, much more." This is the first entry into a 2-year CaringBridge journal for my husband Bob who was 63 at the time and a very virile and active man. The hematoma turned out to be a rare and aggressive cancer that would take his life just 2 years later. The journal documents the tremendous faith and strength that he received from Christ every step of the way. The journal will carry you through the innermost thoughts of a man who knows that there is a possibility that he will not live through this, but turns to God and sees the joy of life in adversity. I rode the journey with him for 2 years and realized that through Jesus, Bob was able to not only live well but also to die well. His journal will put you front and center on his beautiful journey, something he called "an e-ticket ride with Christ." We were all blessed to be a part of his journey and I hope, that after reading this, you will feel blessed too. "He took my fear and turned it into wonder" "The mysteries of the ages will be mine soon. Are you jealous" "Open our eyes to the reality of the moments we live in."
