Oracle BPEL Process Manager.
BPEL is the standard for
assembling a set of discrete
services into an end-to-end
process flow, radically
reducing the cost and
complexity of process
integration initiatives.
Oracle BPEL Process Manager
offers a comprehensive and
easy-to-use infrastructure
for creating, deploying and
managing BPEL business
processes. Downloads.

Overview of Oracle BPEL Process Manager

Oracle BPEL Process Manager
for Developers provides a
design and standalone test
environment. With this
option, you design your
process and then perform
preproduction deployment and
testing. Once you are ready
to deploy a production
version, you use the
OracleAS Middle Tier option
to deploy the BPEL process.
When you select Oracle BPEL

Developers, you get these
components:

Oracle BPEL Process Manager
Installation

Oracle BPEL Process Manager
is a BPEL engine that is a
member of the Oracle Fusion
Middleware family of
products. It enables
enterprises to orchestrate
disparate applications and
Web services into business
processes. The ability to
quickly build and deploy
these processes in a
standards-based manner
delivers critical
functionality for developing
a Service-Oriented
Architecture (SOA).
