This book provides an excellent framework to analyse the experience of a wide variety of successful initiatives across the world and draws attention to critical issues that practitioners need to think about when designing poverty reduction interventions and scaling up. Bill Tod, Regional MDG Adviser, SNV Asia With its wide regional coverage, and frank discussions of issues and problems encountered in designing projects that directly tackle poverty, this will be a very useful reference book for NGOs, INGOs, and also for multilateral institutions. Johanna Boestel, Country Economist, Asian Development Bank, Sri Lanka Resident Mission We are now at the midpoint for achieving the Millennium Development Goals and the objective of halving poverty by 2015. Despite commendable efforts and much progress, up to 750 million people are still living in absolute poverty. To lift these people out of poverty, macro-economic policies must be complemented by targeted and local level poverty reduction. This book looks at twenty of the most innovative case studies of poverty reduction and Millennium Development Goal localization from fifteen countries - Afghanistan, Bangladesh, Cambodia, China, Egypt, India, Indonesia, Malaysia, Mexico, Nepal, Paraguay, Philippines, Sri Lanka, Thailand and Vietnam - covering diverse issues ranging from housing and tourism to socio-economic empowerment of women, health insurance and markets for livestock produce. Many of the cases started as small scale interventions by NGOs, donors or government pilots but now they are being scaled up to form part of national policy or replicated across their respective countries. Yet why do some work while others do not? What are the stumbling blocks and how can they be overcome? And what lessons and principles are there for replicating and scaling up poverty reduction initiatives worldwide? This book tackles these questions and more, and presents a wealth of knowledge, evidence and ideas for all practitioners and researchers working to reduce poverty at the local level while aiming to achieve a global impact. Published with UNDP

The State of the Adivasis in Odisha 2014: A Human Development Analysis endeavours to identify and highlight the development concerns of the tribals of the state, explore their causes and provide an opportunity to the state planners in prioritising the human development issues specific to this community. As one of the most excluded communities of India, Adivasis face many challenges in their daily lives: extreme poverty, social exclusion, poor access to healthcare, education and employment opportunities, displacement from their lands and forests and so on. The key objective of this report is

to understand these areas of deprivations. It is imperative for the government to ensure food and nutritional security to Adivasis. Efforts should be made for conservation of forests. The tribes need to be provided with hospitals, schools and basic infrastructural facilities. Equal participation of women in project committees at all levels and in training schemes and commercial ventures should be taken to reduce gender inequality. Based on primary and secondary data analysis, this report studies the poor socio-economic condition of the Adivasis and offers possible solutions for empowering the tribal community as a whole.
