This book serves as a one-semester introductory course in number theory. Throughout the book, Tattersall adopts a historical perspective and gives emphasis to some of the subject's applied aspects, highlighting the field of cryptography. At the heart of the book are the major number theoretic accomplishments of Euclid, Fermat, Gauss, Legendre, and Euler, and to fully illustrate the properties of numbers and concepts developed in the text, a wealth of exercises has been included. The reader should have "pencil in hand" and ready access to a calculator or computer. For students new to number theory, whatever their background, this is a stimulating and entertaining introduction to the subject.

Sari doesn't like being the only Muslim student in her class, especially when kids like Andrew ask difficult questions. Then, a trip back in time takes them both to September 11, 2001. A tragic day in U.S. history helps them see their world in a whole new way. This graphic novel introduces the events of 9/11 to students and explores important social issues such as religious prejudice. This hi-lo book will capture the interest of kids who enjoy graphic novels involving time travel, tragic events, and historical fiction.
