Classic Books Library presents this brand new edition of [The Federalist Papers], a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. [The Federalist], as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755\1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Originally published to commemorate the bicentennial of the United States Constitution, The Founders' Constitution is arguably the most important of all resources on the principles of the Framers of the American republic. As the editors explain, the work consists of "extracts from the leading works of political theory, history, law, and constitutional argument on which the Framers and their contemporaries drew and which they themselves produced." The documentary sources and inspirations reach to the early seventeenth century and extend through those Amendments to the Constitution that were adopted by 1835 -- that is, through the end of the era of Chief Justice John Marshall of the United States Supreme Court. This set includes: Volume 1: Major Themes by Ralph Lerner; Volume 2: The Preamble Through Article 1, Section 8, Clause 4; Volume 3: Article 1, Section 8, Clause 5, Through Article 2, Section 1; Volume 4: Article 2, Section 2, Through Article 7; Volume 5: Amendments 1 Through XII.

Authors Preface It is impossible for a man to learn, what he thinks he already knows! Most Americans believe that the U.S Government is protecting privacy rights and private property. The sad truth is, through the Act of 1871, and HJR 192, our government has abandoned its! duty to the supreme office holder, the sovereign Citizen. The third Roosevelt administration, took advantage of its! pseudo authority and effectively duped the masses, by fraud, then, enacted the treasonous provisions of the [New Deal! Yet, few Americans are actually aware of, that grand deception. We the People were dealt a foreign judicial system, which overturned the original [chain of command], and, unlawfully prosecutes all, for [Public Policy] violations. The [Act of 1871] unlawfully claimed THE UNITED STATES as sovereign. In 1933, HJR 192 initiated [Public Policy], instead of Common Law, and, issued U.S. [debt instruments], Federal Reserve Notes, instead of silver certificates. Also, by design, the public education system, of the [U.S.] government, deliberately, failed its! duty, to fully educate all Americans, of their lawful birthright, that of [sovereign] rights! Article 1 Section 10 of the Texas Constitution states, quote; and no person shall be held to answer for a criminal offense, unless on an indictment of a grand jury, end quote! By law, no public servant is to act against your liberty, unless he has actually witnessed you, commit a felonious act, or exigent circumstances exit. Or, if there has been a sworn affidavit filed, naming you as the perpetrator of a felony. His sworn duty is expressed in the preamble of Article 1 of the Bill of Rights, quote; That the general, great and essential principles of liberty and free government may be recognized and established, we declare: end quote! Liberty is precious, second only to life itseff! That is why [we the People] have authorized [public servants] to guard and protect [our sovereignty]. They are authorized to act [only] against actual Common Law crimes. The essential duty of [public servants], was/is to serve and protect, the [liberty], property and sovereign rights of the People. Can [our] free society exist, abide, and flourish, if we do not honor our God given liberty as a precious part of life, not to be infringed upon without a binding cause? Liberty, precious, God given liberty, cannot be infringed upon, simply because [our] representatives, have chosen to allow their agents to misapply commercial codes, above the inherent rights of the sovereign People. In this country, one is considered to be a criminal, if one is cited, not wearing a seat belt. And, if you fail to pay the agency, [claiming criminal behavior], they will arrest you! Even though, there is no victim, no verified complaint, no indictment, no felonious act, and no exigent circumstances existed, to condone your seizure. The public servants within [our] government have sworn an oath, to protect the essential principal of liberty? Our God given, liberty! So, can a victimless crime, lawfully exist? Proverbs 3 \u0026 31 says; Strive not with a man without cause, if he have done thee no harm. Envy thou not the oppressor, and choose none of his ways

The ever increasing relevance of European law which involves replacement or supplementation of and interaction with national law not only affects the states in Europe but also, and foremost, the citizens. The rights of the citizens in Europe are protected by the European Fundamental Rights and Freedoms. The aim of this textbook is to grasp and illustrate the meaning of these rights and to integrate it into a coherent system. For this purpose the book not only deals with the pertinent law of the European Union and the European Community, but also with the European Convention for the Protection of Human Rights and Fundamental Freedoms which, too, is becoming more and more important. In addition, regard is had to the Charter of Fundamental Rights of the Union which forms part of the Treaty establishing a Constitution for Europe. Although the Charter is not yet legally binding since the Constitution has not been ratified by all EU Member States, the Community Courts already make reference to it as a concentrate of the constitutional traditions common to the Member States. It therefore does not seem entirely unlikely that the Charter might be included into the existing Treaties irrespective of the future constitutional developments on the EU level. On a similar anticipatory basis the book also takes into account those Protocols to the European Convention for the Protection of Human Rights and Fundamental Freedoms that have not yet entered into force.
