Where To Download Solutions Manual For Corporate Finance

The Solutions Manual, carefully revised by Peter Crabb of Northwest Nazarene University, contains solutions to all basic, intermediate, and challenge problems found at the end of each chapter. This supplement can be purchased by students with instructor approval or can be packaged with this text at a discount.

Provides students with an inexpensive note-taking system that contains a reduced copy of every slide in the PowerPoint presentation.

Corporate Finance, by Ross, Westerfield, and Jaffe emphasizes the modern fundamentals of the theory of finance, while providing contemporary examples to make the theory come to life. The authors aim to present corporate finance as the working of a small number of integrated and powerful intuitions, rather than a collection of unrelated topics. They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. The well-respected author team is known for their clear, accessible presentation of material that makes this text an excellent teaching tool. The ninth edition has been fully updated to reflect the recent financial crisis and is now accompanied by Connect, an exciting new homework management system.

This new international edition provides increased coverage of

Where To Download Solutions Manual For Corporate Finance

the procedures for estimating the cost of capital, expanded coverage of risk management techniques and the use and misuse of derivatives, and additional coverage of agency problems.

Prepared by Bruce Swensen of Adelphi University, this resource contains solutions to the end-of-chapter problems for easy reference.

The Solutions Manual contains detailed, worked-out solutions for all of the problems in the end of chapter material. It has also been revised for accuracy by multiple sources. It is also available for purchase by students. The Solutions Manual is prepared by Joseph Smolira, Belmont University
