What is spread betting in forex? Spread betting is a tax-free* method of trading the financial markets. Traders are able to speculate on the price movements of forex currency pairs by opening a position based on whether they think the currency will appreciate or depreciate. If you expect the value to rise, you would open a long or 'buy' position, or if you expect the value to fall, you would open a short or 'sell' position.

In spread betting, there is no actual exchange of the currency or purchase of the financial instrument that is being traded. Spread betting involves taking a position based on anticipating whether the price of a financial instrument will increase or decrease in the future. This form of betting means an investor will win or lose money based on the marginal variation of a particular outcome and the expected value spread quoted by the spread betting brokerage.

If you would like to profit from trading the Forex markets but do not want to use large amounts of money to start - then this is the method for you. For as little as £200/USD to start trading you can make a regular income stream - a very welcome bonus in these hard economic times.This system is based on using visual signals that you can easily see on the charts supplied by the spread betting companies. It requires no deep financial knowledge, complex spreadsheets or formulae and doesn't even depend on whether the markets are going up or down - just watch for the signals and start trading. It really is that simple. All you need is your eyes and a computer - that's it! I expect you are maybe slightly sceptical at this stage and I don't blame you, I imagine that perhaps you may have tried other Forex schemes in the past and been disappointed with the results - well join the club! So have I, I have wasted thousands of pounds in the past, trying out various methods that claim to make you regular large sums of money without success. Don't get me wrong, I don't think that many of these were deliberately misleading but often they don't work for many people for one reason or another. However, I knew that there were people that do make regular income streams from trading the Forex and I was determined to find a way that worked for me- not just occasionally but consistently and without the involvement of complicated spreadsheets or formulae.Profits from financial spread betting are free of tax. This is one of the main attractions for many people. There are no fees or commissions to pay! the only charge is the modest dealing spread (explained in the book). You can access thousands of markets from one account. Many Spread Betting companies offer global indices, individual shares, currency pairs, and commodities such as crude oil and precious metals, as well as sectors, bonds, options, binary bets and many more. You can spread bet whenever and wherever you want. There are no restrictions as to when you can place a bet and many of the markets are available to trade even when the underlying market is closed. Additionally with many companies offering Mobile options to choose from you can access your account whenever you need to, no matter where you are. Potential losses can be limited by using Stop Losses with guaranteed stops allowing you to put an absolute limit on your risk without affecting your potential profits.

REVISED AND UPDATED 2ND EDITION OF THE NO.1 BESTSELLER! Have you dabbled in shares or the stock market? And wondered what spread betting was all about and whether you should be doing it? Perhaps you thought it all looked a bit complex or was just for City boys? The no. 1 bestselling beginner's guide that explains - in plain English - how to do it, and how to make money from it, is back and better than ever! Spread betting shares can be dangerous: most people lose - some even lose their shirts. But it's not a world populated by pinstriped men waiting to rob you, steal your savings and do nasty things to small kittens. You can win. (And you never have to pay a penny in tax!) This book shows you how. Robbie Burns, bestselling author of The Naked Trader and Trade Like a Shark, has been spread betting for years. He explains why it's an indispensable tool to use alongside normal investing or trading. Especially as you can make money even if the market goes down. Robbie takes you through everything from how it works, to managing your risk, working out exposure, and how, often, doing nothing is the best move! He explains the ins and outs of successfully betting on shares in his trademark down-to-earth style, covering all you need to know. From the simple stuff through to proven strategies, including those that can be used in different markets - it's all here. There are also tons of real-life trading examples from his own account. But it's a big, bad old world out there, and there are a whole heap of mistakes you can make, an awful lot of money you can lose. Rounding up spine-chilling traders' tales of spread bets gone wrong, and using all he has learnt from making silly mistakes himself, Robbie also helps you learn what NOT to do. This is the ultimate guide to spread betting - how to do it, have fun and hopefully make a few quid. You can't afford to spread bet without it!
