appreciating differences between systems thinking and linear thinking lies with the definition of "system."

~~SYSTEMS THINKING FOR STRATEGIC LEADERS~~

The idea of system thinking is that there cannot be a strategy without a clear understanding of the system in place, this idea is also the idea of strategic thinking (Pearl, 2017). Rather than relying on past information, a system thinker observes the situation holistically by evaluating the different interrelated element within the environment.

~~Strategic thinking — Wikipedia~~

Strategic Management System. To develop a strategic management system, Haines (2000) suggested using the "Systems Thinking Approach" and its five-phased (ABCDE) Systems Thinking model that invites the leader to ask and answer five important questions: (A) Where do we want to be? (B) How will we know when we get there?
