Previously published under title: Strategic management.

Aiming to bridge the gap between theory and application, this work focuses on strategic management.

The global economic recovery has created a business environment that is quite different and more complex than before. This new edition of the textbook reveals how to conduct effective strategic planning in this new world order.

For many centuries, science and religion have remained staunchly independent. Whenever issues have developed that simultaneously touched on both areas, debate often ensued—for example, when scientists first proposed that the earth revolved around the sun, or when the theory of evolution was proposed. There has always been a cultural disconnect between science and religion that has caused dissention and distrust. Research conducted by author Fred R. David, however, reveals that the missing link between

science and religion may be UFOs or, more specifically, the beings inside those crafts. The UFO-Christianity Connection: Fact or Fiction • reveals that UFOs played a significant role in how ancient civilizations built megalithic structures and predicted celestial events perfectly; • brings to life the close association that ancient civilizations had with ancient astronauts—whom they called gods or sky people; • reveals that many events described in ancient writings, including the Bible, involved UFO encounters; • gives readers a unique perspective to engage others in discussing angels, God, UFOs, Bigfoot, Satan, giants, the underworld, the flood, Atlantis, and Jesus. The scientific information presented here is vital for people of all faiths on all continents. Explore the missing link that bridges the gap between science and religion.

A clear, concise textbook on strategic planning using an interactive process from a leadership perspective that covers business, not-for-profits, and public entities.

"A must read for those who want a new approach to fine business leadership," July 8, 2009 - Midwest Book Review (Oregon, WI)

Introduce your students to strategic management with the market-leading text that sets the standard for the course area. Written by respected scholars who have taught strategic management at all educational levels, Hitt, Ireland, and Hoskisson's latest edition provides an intellectually rich, yet thoroughly practical, analysis of strategic management. The classic industrial organization model is combined with a resource-based view of the firm to provide students with a complete understanding of how today's businesses establish competitive advantages and create value for stakeholders. Cutting-edge research is presented with a strong global focus, featuring more than 500 emerging and established companies. All-new opening cases introduce chapter concepts and mini cases offer new contexts of study. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A component of David's Strategic Management, 6/e, this book is unique in its lively, conversational style, practitioner-oriented perspective, numerous experiential exercises, and exceptionally up-to-date cases that focus on real companies in the news. It integrates three very contemporary themes throughout each chapter globalization, the natural environment, and technology. Presents cases for study and skill-building in all the major areas of strategy formulation, implementation, and evaluation.
