In the midst of the struggle, one mid-sized Midwestern company, led by a former Marine deeply concerned about the care of his co-workers, waged war on health care costs and won. In **THE COMPANY THAT SOLVED HEALTH CARE**, John B. Torinus tells the compelling tale of how he involved employees in their own health, enabling them to be effective consumers by creating transparency of pricing — something woefully absent from medical care in America.

The Company That Solved Health Care describes details of Serigraph's program and shows how any company can achieve similar results. This book is essential reading for any manager responsible for company health-care expenses or anyone who wants to better understand why costs have been rising and what can be done to achieve price stability.

The Company That Solved Health Care—BenBella Books

But one mid-sized Midwestern company, led by a former Marine deeply concerned about the care of his employees, has waged war on healthcare costs and won. John Torinus Jr. is chairman of Serigraph, a company that spends one-third less than the national average to insure its workers. If the U.S. adopted similar reforms, the savings would amount to \$800 billion dollars annually—enough to cover the nation's uninsured several times over.
