Vectra was deployed to give us a view of what is happening on the user network. It helps us to check what is being done by users, if that is compliant with our policies, and if what they're doing is dangerous. It covers cyber security stuff, such as detecting bad proxies, malware infections, and using packet defense on strange behaviors, but it ...

Taken in isolation, the Vectra is a very good car, ideally suited to its key activity, namely pounding the UK motorway network with a bootful of samples. Unfortunately it arrived just in time to run headlong into talented all-rounders like the facelifted Ford Mondeo, the Mazda6, the Honda Accord and the Toyota Avensis.

Vectra 3D® repels by creating a 'hot foot' reaction. Fleas, ticks and other parasites come into contact with your dog's coat or skin, and become exposed to Vectra 3D®. They retreat back up hair shafts without biting, and soon die. And mosquitoes sense the active ingredients of Vectra 3D®, and 80% of the time, avoid dogs without landing.

This Vectra was launched in 2002 but the facelifted version of the car was announced in the summer of 2005. It saw the Vectra inherit the rakish frontal styling cues previously seen on the MkV Astra hatchback. Handling sharpness was also improved and the range-topping 3.2-litre V6 powerplant was replaced by a 2.8-litre turbocharged V6 with 227bhp.
