Cokie Roberts's number one New York Times bestseller, We Are Our Mothers' Daughters, examined the nature of women's roles throughout history and led USA Today to praise her as a "custodian of time-honored values." Her second bestseller, From This Day Forward, written with her husband, Steve Roberts, described American marriages throughout history, including the romance of John and Abigail Adams. Now Roberts returns with Founding Mothers, an intimate and illuminating look at the fervently patriotic and passionate women whose tireless pursuits on behalf of their families -- and their country -- proved just as crucial to the forging of a new nation as the rebellion that established it. While much has been written about the men who signed the Declaration of Independence, battled the British, and framed the Constitution, the wives, mothers, sisters, and daughters they left behind have been little noticed by history. Roberts brings us the women who fought the Revolution as valiantly as the men, often defending their very doorsteps. While the men went off to war or to Congress, the women managed their businesses, raised their children, provided them with political advice, and made it possible for the men to do what they did. The behind-the-scenes influence of these women -- and their sometimes very public activities -- was intelligent and pervasive. Drawing upon personal correspondence, private journals, and even favored recipes, Roberts reveals the often surprising stories of these fascinating women, bringing to life the everyday trials and extraordinary triumphs of individuals like Abigail Adams, Mercy Otis Warren, Deborah Read Franklin, Eliza Pinckney, Catherine Littlefield Green, Esther DeBerdt Reed, and Martha Washington -- proving that without our exemplary women, the new country might never have survived. Social history at its best, Founding Mothers unveils the drive, determination, creative insight, and passion of the other patriots, the women who raised our nation. Roberts proves beyond a doubt that like every generation of American women that has followed, the founding mothers used the unique gifts of their gender -- courage, pluck, sadness, joy, energy, grace, sensitivity, and humor -- to do what women do best, put one foot in front of the other in remarkable circumstances and carry on.

The Age of Fable Thomas Bulfinch - Thomas Bulfinch collected and interpreted the legends of the world for everyday people, so that those who lacked extensive schooling could still understand the mythological allusions that fill classic and contemporary literature Bulfinch's Mythology began as three separate volumes in the 1850s and 60s. Bulfinch published "The Age of Fable, or Stories of Gods and Heroes" in 1855 and then moved on to publish two more collections: "The Age of Chivalry, or the Legends of King Arthur" in 1858; and "Legends of Charlemagne, or Romance of the Middle Ages" in 1863. When Bulfinch died in 1867, the three volumes were combined and retitled Bulfinch's Mythology and reprinted in 1881. It has remained one of the most trusted English-language interpretations of Greek and Roman mythology, Arthurian legend, and medieval romance ever since.
