Tragedy . . . heartache . . . how much more can Tyler Montgomery and John Webster take? This missions trip, the "healing" one, has only added fresh layers of pain. Construction of an orphanage in Haiti's northwest . . . yes. But a doomed rescue operation, human traffickers, human anomalies, extreme personal danger . . . risk of death? They hadn't signed up for those. Turning their backs on the crisis, however, is unthinkable, it's just not who they are.

"Transported me effortlessly...Haunting, harrowing and heartbreaking, this is a novel that will stay with you." --Ashley Audrain, New York Times bestselling author of The Push "A ghost story and fantastically gripping psychological investigation rolled into one. It is also a pitch-perfect piece of writing. . . . As with Shirley Jackson's work or Sarah Waters's masterpiece Affinity, in Stonex's hands the unspeakable, unexamined, unseen world we can call the supernatural, a world fed by repression and lies, becomes terrifyingly tangible." --The Guardian (London) Inspired by a haunting true story, a gorgeous and atmospheric novel about the mysterious disappearance of three lighthouse keepers from a remote tower miles from the Cornish coast--and about the wives who were left behind. What strange fate befell these doomed men? The heavy sea whispers their names. Black rocks roll beneath the surface, drowning ghosts. And out of the swell like a finger of light, the salt-scratched tower stands lonely and magnificent. It's New Year's Eve, 1972, when a boat pulls up to the Maiden Rock lighthouse with relief for the keepers. But no one greets them. When the entrance door, locked from the inside, is battered down, rescuers find an empty tower. A table is laid for a meal not eaten. The Principal Keeper's weather log describes a storm raging round the tower, but the skies have been clear. And the clocks have all stopped at 8:45. Two decades later, the keepers' wives are visited by a writer determined to find the truth about the men's disappearance. Moving between the women's stories and the men's last weeks together in the lighthouse, long-held secrets surface and truths twist into lies as we piece together what happened, why, and who to believe. In her riveting and suspenseful novel, Emma Stonex writes a story of isolation and obsession, of reality and illusion, and of what it takes to keep the light burning when all else is swallowed by dark.

In My Paper Chase, Harold Evans recounts the wild and wonderful tale of newspapering life. His story stretches from the 1930s to his service in WWII, through towns big and off the map. He discusses his passion for the crusading style of reportage he championed, his clashes with Rupert Murdoch, and his struggle to use journalism to better the lives of those less fortunate. There's a star-studded cast and a tremendously vivid sense of what once was: the lead type, the smell of the presses, eccentrics throughout, and angry editors screaming over the intercoms. My Paper Chase tells the story of Evans's great loves: newspapers and Tina Brown, the bright, young journalist who became his wife. In an age when newspapers everywhere are under threat, My Paper Chase is not just a glorious recounting of an amazing life, but a nostalgic journey in black and white.

Describes the killings of Thomas and Jackie Hawks, a retired probation officer and his wife, allegedly at the hands of Skylar Deleon, a former child actor, and his co-conspirator, his wife Jennifer, who plotted to steal their life savings and throw them overboard from their own yacht. Original.

"[A] riveting account of a fishing boat and its four young crewman lost at sea in 1984 off the coast of Montauk in eastern Long Island--a "fishing town with a drinking problem," as the locals have it--and the stunning repercussions of that loss for the families and friends of the four missing men and, indeed, the entire storied summer community of the Hamptons"--

From a mesmerizing storyteller, the gripping search for a missing World War II crew, their bomber plane, and their legacy. In the fall of 1944, a massive American bomber carrying eleven men vanished over the Pacific islands of Palau, leaving a trail of mysteries. According to mission reports from the Army Air Forces, the plane crashed in shallow water--but when investigators went to find it, the wreckage wasn't there. Witnesses saw the crew parachute to safety, yet the airmen were never seen again. Some of their relatives whispered that they had returned to the United States in secret and lived in hiding. But they never explained why. For sixty years, the U.S. government, the children of the missing airmen, and a maverick team of scientists and scuba divers searched the islands for clues. With every clue they found, the mystery only deepened. Now, in a spellbinding narrative, Wil S. Hylton weaves together the true story of the missing men, their final mission, the families they left behind, and the real reason their disappearance remained shrouded in secrecy for so long. This is a story of love, loss, sacrifice, and faith--of the undying hope among the families of the missing, and the relentless determination of scientists, explorers, archaeologists, and deep-sea divers to solve one of the enduring mysteries of World War II.

Perfect for readers of Jon Krakauer and Douglas Preston, this "authentic and encyclopedic" book examines real-life cases of those who vanish in the wilderness without a trace (Roman Dial)--and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The

proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory—history—The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.
