For lovers of Sloane Crosley and Samantha Irby, this hilarious and raw essay collection paints a recognizable and relatable portrait of life in the early aughts. Former Senior Editor for Gothamist Rebecca Fishbein's adult life has been a dramatic reflection of New York media itself—constantly evolving in unexpected ways and seemingly always on the edge of disaster. In short, Rebecca has seen it all—from 3 bedbug infestations, to being fired, to being yelled at while working at American Apparel, to losing all her stuff in a freak fire, to being bullied online by angry Taylor Swift fans. But the real humor and meat of the collection come from Rebecca's unwavering honesty and unflinching examination of her struggles with alcohol, anxiety, depression, compulsive lying, female beauty standards, and a slew of failed coworker/roommate/friend semi-relationships are dark, insightful, and hilarious. As Jia Tolentino commented, the era of the personal essay ended with the election—this is not your grandmother's millennial essay collection. Rebecca's writing is relatable without being preachy and conveys a message of resilience by example, not by moral. Readers will recognize the world they themselves see—a disastrous president and a scary socioeconomic landscape—in Becca's writing and find comfort in her humor and a snarky but incisive friend in her writing.

One of the twentieth century's most extraordinary Americans, Pearl Buck was the first person to make China accessible to the West. She recreated the lives of ordinary Chinese people in "The Good Earth," an overnight worldwide bestseller in 1932, later a blockbuster movie. Buck went on to become the first American woman to win the Nobel Prize for Literature. Long before anyone else, she foresaw China's future as a superpower, and she recognized the crucial importance for both countries of China's building a relationship with the United States. As a teenager she had witnessed the first stirrings of Chinese revolution, and as a young woman she narrowly escaped being killed in the deadly struggle between Chinese Nationalists and the newly formed Communist Party. Pearl grew up in an imperial China unchanged for thousands of years. She was the child of American missionaries, but she spoke Chinese before she learned English, and her friends were the children of Chinese farmers. She took it for granted that she was Chinese herself until she was eight years old, when the terrorist uprising known as the Boxer Rebellion forced her family to flee for their lives. It was the first of many desperate flights. Flood, famine, drought, bandits, and war formed the background of Pearl's life in China. "Asia was the real, the actual world," she said, "and my own country became the dreamworld." Pearl wrote about the realities of the only world she knew in "The Good Earth. "It was one of the last things she did before being finally forced out of China to settle for the first time in the United States. She was unknown and penniless with a failed marriage behind her, a disabled child to support, no prospects, and no way of telling that "The Good Earth "would sell tens of millions of copies. It transfixed a whole generation of readers just as Jung Chang's "Wild Swans "would do more than half a century later. No Westerner had ever written anything like this before, and no Chinese had either. Buck was the forerunner of a wave of Chinese Americans from Maxine Hong Kingston to Amy Tan. Until their books began coming out in the last few decades, her novels were unique in that they spoke for ordinary Asian

people-- "translating my parents to me," said Hong Kingston, "and giving me our ancestry and our habitation." As a phenomenally successful writer and civil-rights campaigner, Buck did more than anyone else in her lifetime to change Western perceptions of China. In a world with its eyes trained on China today, she has much to tell us about what lies behind its astonishing reawakening.
